— KUMOBITS AB · SYNTHWAVE ENDLESS RACER

Neon Drift

A synthwave endless racer with daily tracks, drift boosts and ghosts of your best run.

PLAYABLE EARLY BUILD

NOVEMBER 2026

PLAY NOW kumobits.com/games/play/neon-drift/

— THE IDEA

A synthwave endless racer with daily tracks, drift boosts and ghosts of your best run.

Neon Drift is an endless racer on a neon grid under a synthwave sun. Weave through traffic, hold a drift, then release it for a burst of speed.

Every day there is a new seeded course, the same for everyone. Arcade mode keeps a fixed course. Your personal best comes back as a ghost to race against.

STATUS

Playable early build

PLATFORMS

Browser on desktop
Browser on phones (touch)

BUILT WITH

TypeScript
three.js
Web Audio

— IN GAME

Neon Drift, as it is today

It runs in the browser on desktop and on phones, with no install.

Racing the daily course. In game capture.

HOW IT PLAYS

What it does

Drift to boost

Hold Space while steering, then release to boost.

Daily course

A new seeded track every day at 00:00 UTC, plus a fixed Arcade course.

Ghost replays

Race your personal best. Records and ghosts stay in your browser.

Near misses and pickups

Traffic, boost pickups and close calls for extra score.

Touch ready

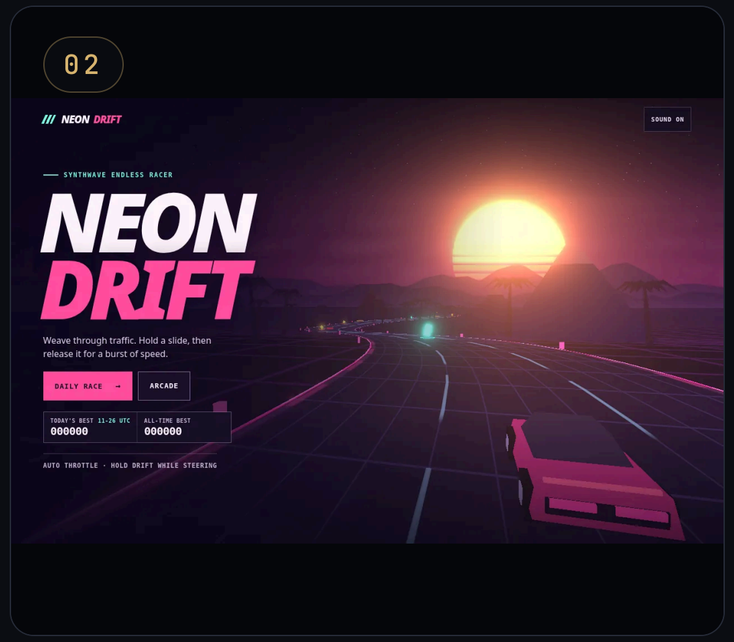

On phones, on screen steering with automatic throttle, plus Brake and Drift buttons.

Synthesized sound

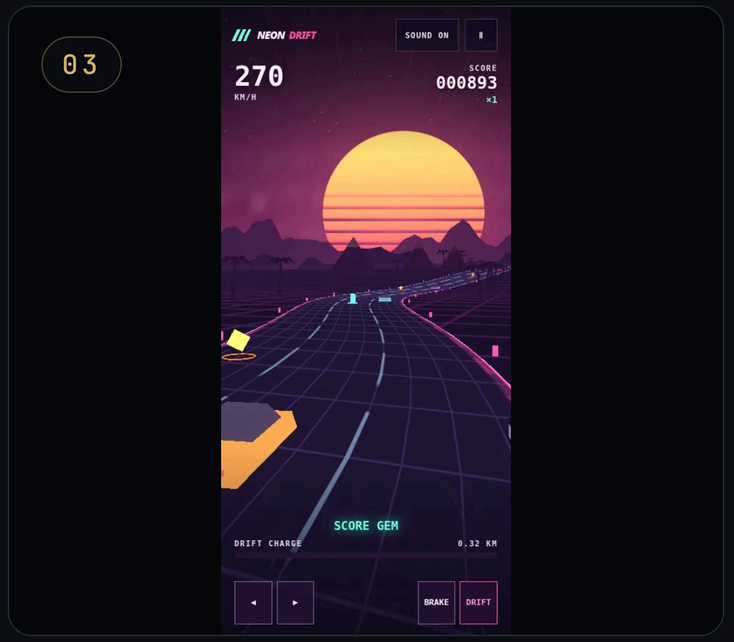

Engine sound and music are generated in code with Web Audio.

SCREENSHOTS

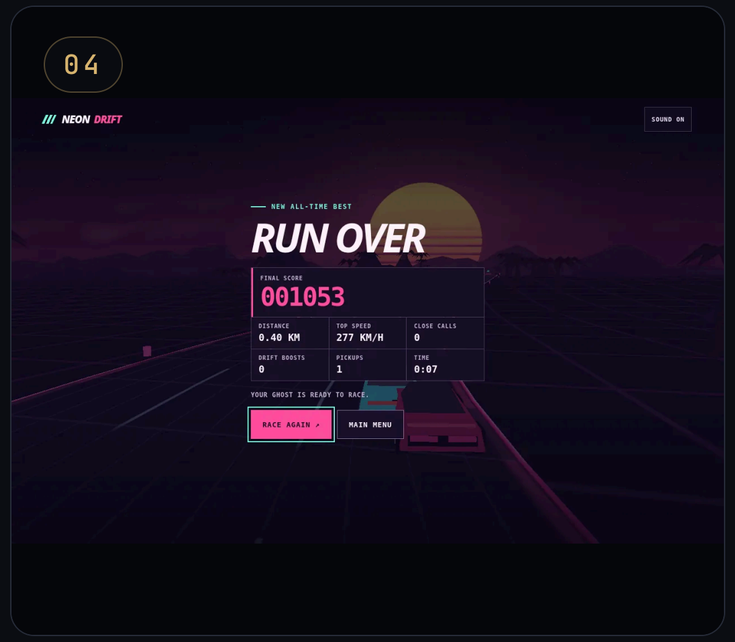

More from the build

Title screen. In game capture.

Phone layout with touch controls. In game capture.

Run over screen with your stats. In game capture.

— WHERE IT STANDS

Playable early build

Honest status: Early build. Captures were taken in a software renderer, so real devices look smoother.

Next 1

Playtesting with the first players

Next 2
